

## **Let's Rise Together Taroom**

It all starts, right here in Taroom  
Who we are, community and school  
Growin' up in the shade, of the Leichhardt Tree  
Or on the Dawson River where us kids can all run free

And there's open space for us to dream.....

**(Chorus)**

**I will start from where I stand  
This place will make me who I am  
So work hard and stay true  
Let's rise together Taroom**

We represent the green and gold  
We are the future and our story will unfold  
In a land of Buffel, Brigalow and cattle  
Through flood, drought and fire we'll face the battle

With an unbroken spirit, cause that's the country way

**I will start from where I stand  
This place will make me who I am  
So work hard and stay true  
Let's rise together Taroom**

Let's rise together, face challenges as one...  
And lead with purpose, and forge a path for the young

Let's Rise Together  
Let's Rise Together

*The official Taroom State School song, written and performed by the students and Josh Arnold.*
